

Tanisha Rajgor - American Restaurants in NYC

Data Title: Restaurants in NYC

Data URL: restaurants.json - MongoDB

Query:

```
db.restaurants.find({"cuisine":  
"Bakery", "borough": "Queens"},  
  {"restaurant_id": 1, "name":  
1, "address.coord": 1, "borough":  
1, "cuisine": 1}).limit(10)
```

Output:

We can get a glimpse of the general locations of each of the boroughs, as well as the concentrations of different cuisines in each borough. It can truly be seen how concentrated "American" restaurants are in Manhattan, which made up 41.2% of all restaurants in the borough.
